

Bucharest, March 2010

With respect to launching the romanian website www.topten.info.ro

ICEMENERG, Energy Research and Modernising Institute, launched the romanian website, a consumer – oriented online tool for household appliances (next for the office equipment, consumer electronics and cars): www.topten.info.ro

The website aims at presenting and ranking energy efficient products available on romanian market, in a friendly way. By a simple click for each product, information is provided on energy performance and several other characteristics of interest for consumers are specified (i.e. brand, model, technical data, picture, price, life cycle costs, last legal aspects and also recommendation regarding aquisition, use, maintenance and recycling). The major ranking criteria is energy efficiency.

A huge amount of household appliances is available on the market ensuring similar services within the same group of products, but with different energy consumption. The consumer cannot compare among many criteria (energy efficiency and life cycle costs are the most important) and there for the price being the only acquisition criterion. That is why it is very important to encourage the consumer to choose highly energy efficient products because they reduce energy consumption and, implicitly, carbon dioxide emissions in the atmosphere.

With this site Romania becomes a member in TOPTEN websites family which counts 17 countries. All these websites are independent of producers and commercial distributors, and relies on energy labels and standardized declarations, neutral tests and analysis of independent institutions (the methodology is available online).

This tool enables comparison of all kind of energy consuming equipment, a consumer – oriented online tool. As a first stage were launched two categories of products: refrigerators and washing machines. Periodic new categories of products will be presented and the existing categories will be up-to-date.

The website www.topten.info.ro is supported by **Intelligent Energy Europe** within projects: **Euro-Topten și Euro-Topten Plus** and is one of 17 national TOPTEN websites: Austria, Belgium, Czech Republic, Finland, France, Greece, Germany, Italy, Lithuania, Luxemburg, Netherlands, Norway, Poland, Portugal, Romania, Spain, Switzerland.

The romanian website www.topten.info.ro is also supported by GOs, local authorities, media, associations, environmental and energy NGOs.

Project manager for Romania: Mariana Nicoleta BĂRBUȚĂ, senior researcher, ICEMENERG (www.icemenerg.ro), Tel. 0722706624; 0213462738; Fax. 0213462790.

Site-urile TopTen ofera o selectie a celor mai bune aparate electrocasnice din punct de vedere al consumului de energie.

In aceste site-uri informatiile vizate de consumatori (imagine, caracteristici, pret, fara calcule complicate, disponibilitatea in tara), sunt prezentate in mod neutru (fara nici o influenta de la producatori), riguros si transparent (metodologia de selectie este explicata on-line).

Vor fi adaugate cu regularitate categorii de produse noi.

Aceasta selectie a celor mai eficiente produse prezinta stadiul celor mai bune tehnologii disponibile pe piata. De asemenea sunt prezentate si recomandari privind politica in domeniu.

Instructiuni de utilizare a portalului:

1. Selectati categoria si subcategoria de produse din partea de sus a paginii "acasa"
2. Ecranul care se deschide va afisa un tabel cu proprietatile (atributele) produselor din categoria selectata care se gasesc in baza de date: model, pret, indice de eficienta energetica, consum de energie, clasa energetica, inaltime, latime, adancime, temperatura, imagine etc.
3. Ecranul initial cuprinde produsele ierarhizate (de la stanga la dreapta) dupa indicele de eficienta energetica - IEE dar se poate efectua o sortare ascendenta sau descendenta dupa oricare din atributele afisate, printr-un click pe sageata din stanga atributului respectiv.
4. Puteti compara doua sau mai multe produse din aceeasi categorie bifand casetele (check-box-urile) din partea de sus a tabelului si apoi pe butonul "compara" din stanga tabelului. Se va deschide o noua fereastra cu informatii privind produsele selectate.
5. Produsele similare (cu aceleasi caracteristici) provenite de
